READ READ READ
Don Ramon Castro's Report on this camp. He is the agrimensor who surveyed it, and placed the mojones, and knows what it is.
This camp was selected from the very first by the agrimensor Don Eduardo Castex, to whom we can refer by permission.
This is the translation of Senor Castro's report:—
Esteemed Sir:
Your favor asking for a report on your camp Nos 33 and 33, prima relative to the quality of its soil, its grasses, its waters [aguadas] and topography duly received.
For this purpose I have again examined the notes that I took during my survey of your camp.
FIRST, SOIL.
This is in the greater part of a rich black loam (tierra vegetal) and in some smaller portions somewhat calcareous.
GRASSES—These north west from the point F, and NorthEast from the point G, and South East from G, noted in the plan, are of excellent quality, soft grasses, gramilla and trevol being very abundant especially in some of the cañadones the camp has on these lines.
On the lines FF. the grasses although not of the soft character indicated on the other lines, are nevertheless, thick and abundant (tupidos) and excellent for cattle and mares.
Your camp has an arroyo of sweet water which runs into an immense lake called LOS FLAMENCOS also in your camp.
This arroyo takes its rise in springs and the cañadon through which it runs is extensive and rich in soft grasses and trevol.
You have also the great lake DEL HUNCAL of permanent sweet water in your camp which has its crecientes periodically. The cañadon around this is like the other very rich in its grasses and abundant in trevolares.
TOFOGRAPHY. The camp is in general rolling, in some parts high in others quite level.
Believing that these details are sufficient for the present I am
Your truly,
RAMON B. CASTRO.
Agrimensor.
NOTE—The base de venta is ps 90,000 per league payable ¼ cash, ¼ a 6 months, ¼ a 9 months, ¼ a 12 months. Bills to my satisfaction. Titles first class. The above offer I have already, and so I place it as the basis of sale.
Plans and details at my office, San Martin 31
I shall sell to the highest bidder and without reserve on Wednesday, November 16th at 2 p.m. at my office 31 San Martin, where the flag will be flying.

HAVAS' AGENCY

Berlin, Oct. 31st.

Elections for Reichstag on 27th inst. National Liberals lost a large number of seats, and the sundry parties opposed to Bismarck's policy gained a considerable number. Alsace-Lorraine elected solely Ultramontones and Protectionists, so the Autonomist party may be said to to have disappeared.

Rio 1st.

Elections of Deputies passed off quietly. Definite results not known except in a few places, but the Conservatives will be equal to their opponents, and perhaps in a majority in the new Chamber.

IN MEMORIAM.

Yesterday was the greatest celebration of All Souls' Day ever witnessed in this city: added to the customary tribute of respect by all the families, rich and poor, high and low, was the blessing of the new Recoleta Chapel, a Municipality triumph, and 'funcion'

At the earliest daybreak the people began to arrive at the Cemetery, but owing to some misunderstanding they could not get in. Many had to remain outside the walls with their flowers and baskets, whilst others scaled the walls at the rear, and before seven o'clock, a.m., the Cemetery was full of people, although the gates were closed and the police would admit no one without a ticket.

When word was sent down town to the Municipality, Dn. Manuel O'Barrio at once started off to remedy the blunder, but it caused a very great inconvenience, although fully 10,000 invitation cards were distributed by the Municipality. Our readers may judge from this what immense nnmbers went to the Recoleta.

All the tram cars and coaches of tho Plaza were insufficient to carry the people. Paris could hardly have turned out a greater crowd to Pere la Chaise.

At 10 o'clock punctually President Roca and Madame Roca, the padrinos of the new chapel, arrived, and were received by the Archbishop, the Nuncio, the Minister of Culto, Colonel Donovan, etc.

And now arrived Lord Mayor Alvez, with the following members of the Municipal board:—Font, Bosch, Iturriaga, Grondona, Piravano, Parody, Walls and Mulhall, who at once took their places before the Grand Altar.

The new chapel, with the noble gateway, are the greatest possible improvement, and gave an entirely different appearance to the old Recoleta. The main avenue led to an improvised catafalque covered with crape.

The Archbishop officiated in blessing the chapel, having on each side of him President Roca and Madame Eoca, devoutly holding torches. At the conclusion of this most interesting ceremony the bands in the Plaza in front played appropriate airs, but carriage upon carriage kept arriving, and nearly all the matrons of B. Aires, with their children, were assembled under the grand arch.

The Nuncio celebrated Mass in the Rotundo. At the conclusion Padre Jordan preached a most impressive sermon in the Grand Hall, which was filled with ladies

The celebration really calls for special notice, but, owing to pressure on our space, we must hold further remarks for our next.

THE REGATTA

On Tuesday the Regatta so long anxiously looked forward to by the British public came off at the Tigre, and although the attendance seemed to be smaller than last year, there seemed to be more pic-nic parties and pic-nic steamers than before. The special train left the Central Station filled to its utmost, and the little club steamer awaited the passengers at the railway mole to take the ticket-holders to the Alameda grounds on the banks of the Lujan and adjoining the Government slip, the exclusive use of which, although promised to the club, gave rise to an almost International question; however, all was timely arranged. The charges this year were most moderate, tickets for steamer and ground $30, and for ladies 10 m|c.

The course stretched from the mouth of the Abra Nueva to the Gamboa or Bee Station. The river was crowded with little steamers, club boats and all the small boats from San Fernando, whilst Mr Fitzgerald's beautiful yacht, that came up from the Boca and lay off, attracted great attention. Mr Hardy and many others had chartered steamers for the occasion, but the muster on the river's banks was not at all up to that of previous years and suggested the idea that even Regattas are going out of fashion like the once famed Athletic Sports. 'Sic transit &c.' There was very little betting and not much money changed hands. The following is a list of the Committee etc:—

THE MAIPU.

When visiting the steel-clad Brown last Sunday we had occasion to inspect this new torpedo department ship, which is, without exception, the most extraordinary war vessel we have seen her main elements being electricity and wind. We had the great pleasure of meeting a number of English-Argentine officers on board, who came out from England in the ship, in the list of officers. Their names will be found below. A finer or more gentlemanly set of officers than those we were introduced to on board the Brown and Maipu it would be difficult to meet: they are like the ships they have brought out, a credit to the old country.

Mr. Wilson, the chief engineer of the Maipu, is, like all first-class engineers, a Glasgow man: he superintended the making of all the machinery.

The Maipu was built in John Elder's yard.

The first navigating officer, and the man who brought the ship out from Europe, is a countryman of the immortal Admiral Brown: he comes from near Dublin, and we believe there is stuff in him to fill the role of another Admiral Brown.

The Maipu's crew numbers 60, composed of no less than thirteen nationalities.

The following is the list of her officers—

The Maipu was launched on the 18th of October, 1880, from the shipbuilding-yard of Messrs. John Elder and Co., Fairfield, Govan, a steel paddle steamer. The vessel is for torpedo warfare, but may also be used for surveying purposes. Her principal dimensions are:—Length between perpendicular, 240 ft.; breadth, 30 ft.; depth, moulded, 14 ft. 3 in.; her tonnage, B.M., being 1,002 tons. She is propelled by two diagonal oscillating engines, one working each paddle wheel, and for manœuvring purposes these are made capable of being connected or disconnected at will. The high pressure cylinder of each engine is 30 in. in diameter, and the low pressure is 56 in. by 5 ft. 6 in. stroke. Steam is supplied by four steel single-ended boilers, working up to 75 lbs. pressure, and capable of

driving the vessel at a speed of 15 knots an hour easily. She has two pole masts, is of light schooner rig, and has a ram bow. The whole of the 'tween decks is fitted up for the accommodation of the officers and crew, the magazines, store-rooms, shell-rooms, &c., being below. She carries one 40-pounder Armstrong steel breach-loading gun forward, while aft she has one Hotchkiss 5-barrelled 4-pounder gun and two other mitrailleuses. In addition to these her armament consists of spar and Whitehead torpedoes.

The torpedo 'materia' in England was collected and tested by the assistant torpedo engineer and the electrician, under the supervision of Lieutenant Garcia.

NEW CATTLE-MARKING LAW

Owners of horned cattle should take note that the new law, recently passed by the Chambers, has been promulgated, and is now in force:

Art. I—From the 1st of January, 1882, all the cattle of the Province shall be branded on the lower part of the leg, the neck, jaw, or forehead.

Art. II—The maximum size of the brands used for this marking must be fifteen centimetres in diameter, though they may be made as much smaller as may be desired, or as is consistent with their form.

Art. III—The local authorities will order the immediate suspension of all marking which may be in operation contrary to this law; and those who break it, or fail to advise settlers and the Justices of the Peace, in accordance with Art 48 of the Rural Code, will be liable to a fine of one thousand dollars per head of cattle involved, which shall go to the benefit of the local Municipality.

Art. IV—To the ends of the foregoing Article, the registration of all marks will be effected within the dates and at the places hereafter to be designated by the Executive.

Art. V—The 'alcaldes' who superintend the branding in accordance with the said Article of the Rural Code, will see to the strict fulfilment of this law.

EDITOR'S TABLE.

The Regatta was favoured with the most glorious weather on Tuesday, and the attendance was fair sport good and lunch ditto. There were a great many visitors who did not enter the Club grounds. Yesterday was another glorious day, and the crowd at the Recoleta was ten times as large as that at the Tigre. We give particulars of both days' doings in another column.

We are requested to state that, on and after Sunday next, the evening service at the Scotch Church will be at 7.30 instead of at 7 as formerly.

The Pantelephone Society has issued a circular to the estancieros about establishing telephones in the camp. It proposes that every 15 or 20 estancieros in a neighbourhood should join and have their estancias connected with the nearest town and with each other, naming a representative to deal with the Telephone Company in town. The idea is a good one. Occasions often arise when an estanciero would be much benefited if he could transact business 'viva voce' with persons in town.

The news from Rio reports that the mob there had burned the printing premises of the 'Corsario' newspaper. The Conservatives had a majority in the elections.

The papers received by the mail show that France is getting anxious at the Triple Alliance between Russia, Germany and Austria, and her internal and external situation is considered to be anything but satisfactory. Affairs in Tunis look very black for her, and the Communists seem to be getting more daring every day in their propaganda. Prince Victor Napoleon, Son of Jerome, is now serving as a private in the French artillery. The ex-Empress Eugenie has made her will and named him sole legatee, on condition that he make every effort to regain the throne.

The rumpus in the Rosario Municipality has terminated in the Government declaring that body 'en acefalia' and appointing a Municipal Commissioner, Sr Ricardone, to look after the town. This 'coup d'etat' was foreshadowed last week by our talented correspondent 'W.P.' We'll have monarchy in Santa Fe next.

Congress finally passed the Municipal Law on Monday. We will soon have the first civic election ever held in this city. From present appearances the hustings cry will be Sunday Opening. On Tuesday all the shops were open, but the 'ordenanza' does not apply to holidays, only to Sundays.

Negotiations going on for the sale of the Flores Theatre. 350,000 m|c is the price asked.

We hear that the public excursion to the Admiral Brown on Tuesday was an unpleasant failure. Only half a dozen people were on board at the hour of starting, 'and after a long wait for some more, who came not, the steamer started on her way, not rejoicing.

The Comision de Comerciales y Industriales who are now raising a fund to present the Foreign Affairs Minister, Dr Irigoyen, with an album, in recognition of his services in the Boundary Question with Chile have sent us subscription lists, which are now lying at our office for signature. We hope to see them overflowing with signatures. If ever a man deserved some special recognition from the mercantile public, it is Dr Irigoyen.

The Rural Society's petition for re-consideration of the new Cattle Marking Law has been presented to the Provincial Government. It points out that the places selected for marking the cattle are just where most hair grows on them, and the marks will not be seen; there being also no room for the countermarks. The petition puts forward many other strong reasons against this unpopular Bill.

The Florida Gardens will be reopened on Sunday next. The orchestra will be the best ever seen there and will consist of forty of the best instrumentalists in town, Professor Rayneri directing.

General Santos was publicly proclaimed on Sunday last in Montevideo, as the candidate of the Colorado party for the Presidential chair. The long mooted Latorre invasion of Banda Oriental seems to have faded away like a girl in consumption. Banda Oriental is a very changeable place. Six months ago no word in the dictionary was too hard to apply to General Santos, and now he is favourite for the Presidency.

Dr Bores, National Deputy from Tucuman, is spoken of as the new Under-Secretary for Foreign Affairs, vice Dr Saens Peña who has resigned.

A telegram from Chile says that ex-President Pinto has declined the post of Chilian Minister in B. Aires which it was said last week, he had accepted.

The Marina Club Regatta will come off on the 20th inst, and the proceeds will be given to the Invalidos.

The new German Consul-General Sr Schaeffer, has arrived. We feel great pleasure in welcoming him to the Plate. He has come from Japan.

The German Club Concordia gave a grand children's pic-nic at Palermo on Tuesday. Golden hair was in the ascendant amongst the little "Fräuleins," and chubby cheeks amongst the boys. All enjoyed themselves thoroughly.

In reference to city paving a subscriber who is 'au fait' in the business sends us the following:—

"Some seven years ago the London city authorities granted permission to lay down various systems of pavement in order to arrive at a definite conclusion as to their respective merits. Accordingly, in May 1874, a piece of wood pavement constructed on Norton's Patent Wood Slab Pavement system, was laid down. The slabs were 7ft 6x3 ft. composed of blocks cemented together. When laid down the proprietor asserted that this substance would prove to be wholly impervious to wet, thus obviating the chief objection to other wood pavements previously laid down, viz, that the surface water percolates through the interstices of the blocks and by so doing not only rots the wood but creates a nuisance from such rotting. A few years ago, viz, in June 3rd, 1876, a slab of the pavement laid down in Cannon-street was lifted (after being down two years) in the presence of a number of gentlemen and was found to have worn less than ¼in. and the block, when split up to ascertain the truth of the assertion that the water would not percolate through, was perfectly dry and the earth upon which it was laid was found also perfectly dry and in as sound a condition as on the day it was put down.

"Builder, 1876."

A woman with three heads will shortly be placed on exhibition in Calle Esmeralda. We suppose she is something like the famous white horse with *six* legs, from Chascomus, which was exhibited in Calle Cuyo some years ago, almost as great a 'sell' as the Drury Lane man who was to get into and out of a quart bottle, but was 'non est' when the curtain rose. The theatre was nearly torn down by the infuriated audience, the largest ever seen within its walls.

A playful bull calf created a sensation in Calle Artes the other night by breaking loose from his mother's tail and making a furious charge on the general public, who ran like redshanks in all directions. The owner of his calfship fortunately managed to 'lasso' him as he was making, head down, for a fat old gentleman's paunch. Driving milch cows through the streets is a patriarchal custom quite ridiculous in a large city like this. It would do for a camp town. If is also cruel to the cows. When people want milk they should send to the 'tambo' for it,

The Emperor Dom Pedro gave Madlle. Borghi-Mamo, on her benefit night, a magnificent diamond bracelet and other jewels. Tamagno got, from the University students, an Indian Chief's dress, made of feathers, which he wore when singing in the Guarani, the result being 'un entusiasmo frenetico.'

Baron Grevenegg, the distinguished representative here of the Austro-Hungarian empire, has just returned from Paraguay, where he presented his credentials to President Caballero.

The members of the Ateneo of Rosario had a grand debate last week, as to what do you think, gentle reader? The morality of Suicide!!! The affirmative was very warmly sustained by sundry 'jovenes distinguidos', but we have not heard how the precious affair ended. There is something wrong in society's core when such a monstrous subject for discussion is chosen by any association, and beardless boys stand up to openly advocate self-slaughter.

We received the following 'billet doux' yesterday:—

Buenos Aires, Nov. 1, 1881.
To the Editor of the *Standard*.
Dear Sir,

Could you kindly inform me on what days (if any?) the 'Biblioteca Nacional' is open to the public? I have gone there two Sundays and found it closed, but as it is worse than a 'confiteria,' I submit to the law. To-day being a *feast* day, I again found it closed. 'Dependientes' overworked, I suppose. When is it open to the public? Please let me know.

Yours truly,
Student.

The British Hospital report for October shows 28 patients in the house on the 1st, 30 entered, 28 cured, 1 died, and 29 to begin November with.

A move is being made to induce the Western Railway Board to make a reduction in the price of subscription tickets during the summer months. In the interest of the line the Board should do this every summer without being asked.

Patacones	25.25

National Bank Shares	126

The market has opened with weak gold, firm Cedulas, and rising Bank Shares. The gold market did not recover the shock of 31st, and 25.25, which was regarded as such an extraordinary price on Monday, was the current rate to-day. The arrivals of wool are watched now more by the gold men than even the shipbrokers. 60,000 ar. of wool entered the Plaza Once this morning, and this of course pressed on the gold ring. One of the Plaza Once deposits is already full to overflowing, and all the consignatarios have advices from outside that now the wools are coming. Gold opened at 25.30 and closed cash at 25.25; cash sales, 57,134 pats. About 300,000 pats sold on time till end of year at 25.30.

Cedulas, no speculation whatever in the stock, 17,000 sold for to-morrow at 98¾.

National Bank Shares rising and in strong demand, the bulls in great spirits and say they will take the stock to 135 before 15th instant. Outsiders have taken up the stock to pool it and carry it to end of year for dividend. All sorts of calculations are made as to amount of stock floating in market; the best authorities say they stand so—

In fact it was a regular welcoming day on 'Change. Mr Henry Woodgate, who returned in Galileo has been to the Cape and Judia, Egypt, Canal, &c., and prefers Buenos Aires to all. Mr A. H. Stokes Roberts of Liverpool was also welcomed; he pays a flying visit to the Plate on a health tour, and leaves in a few days for Petropolis.

To-morrow at 3 p.m. Messrs. Baltar & Quesada will sell 3 1/3 leagues of the best camp in Lincoln. The land adjoin the estancia of Messrs Casey, Young, Cruz and other well-known persons; it is all mojonado which is a considerable advantage to the buyer, and the terms of payment are easy instalments extending over a period of 8 years, but 25 o/o discount will be allowed for cash. Very shortly such conditions will belong to history, and many will sigh that they did not avail of such glorious opportunities as the present one.

Major Tisdel, agent for the Roach line of steamers, was welcomed on Change on his return from the U. States. He has arranged all questions between the Roach line and the Brazilian Government, the latter having most honourably acknowledged and paid all the Company's claims. Major Tisdel has now come down to arrange the extension of the Roach line to B. Aires, for which Congress has already voted a subsidy. He also contemplates running a line of steamers between this port and Montevideo, with the same kind of vessels that run on Long Island Sound. This will indeed be a boon to both cities of the R. Plate, as wind, weather, in fact everything and anything is allowed to interfere with the present service, and "no steamer to-night", often twice or three times a week, is the result. The new line will meet with full support.

Another great land business was concluded to-day by a new Irish purchaser, Dn Bernard Acosta. 32 square leagues of prime land belonging to the Armstrong testamentaria, sold at the rate of 1800 fts per league. Mr Molino broker. The sale establishes the price for all those good grassy Rio Cuarto lands, said to be some of the best in the country.

To-morrow the American Admiral comes ashore and visit the President, also the new Ital. Minister will be officially received.

Telegrams from London are again very behind, another break somewhere, latest dates 28th.

The Bolsa was crowded to-day with new arrivals and old friends Mr Born, of Bunge & Co, was enveloped in friends.

At 2 o'clock the news spread on 'Change that the Provincial Bank had raised its drawing rate of exchange; the Bank rates now are:

On London 4⅝
Paris 5.20
Antwerp 5 20
Genoa 5.20
Hamburg 4.20 Reichsmarck

This is a very stiff advance, as it was generally supposed that the rate would only be raised to 49, but the Bank has gone ½ per cent higher and this means PAR for gold before 15th inst. A large amount of exchange offering in the market for the mail of 5th has now to be withdrawn or higher rates given.

The applications for discount were not large and the Bank gave nearly everything asked; it discounted about 4 millions.

Baltar & Quesada is crowded: Nash's mares and horses and Mr Forrester's Kerry cow. Mr. Nash's stock attract great notice they will be sold on Saturday.

Messrs William Samson & Co. have renewed the application which they made last year to Government for the subsidising of a line of steamers between the Plate and North America. The steamers of this Company are now afloat and will sail under the French flag. They will start from Montreal, in Canada, touching at Halifax and Boston and return to the same ports. We have thus the prospect of being shortly well supplied with steamers to North America, the want of which has been a long felt evil.

Money is getting much easier, and business every hour growing: in another month we shall have the full weight of the season on us.

The courts decided to-day that the failure of J. M. Ruiz, barraquero at the Once, was casual.

Yesterday the North. Railway was crowded with emigrants going to San Fernando to be forwarded to Santa Fe, and at the same time the mole was black with people, all passengers from the Equateur; the rush of emigrants from Europe to Plate is now unprecedented.

On the very best of authority we learn that the National Government has withdrawn the project of the Hundred Million Loan, and hence the debts of the Nation will stand as they are without any alteration in their coupons or interest. Many telegrams came from London about this scheme, one very long and indignant one; we shewed it to President Roca who took it and gave it to Dr Romero; we have no doubt that that telegram had much to do with the withdrawal of the scheme, also the negotiation of the new B Aires loan; we believe much depended on the withdrawal of this extraordinary loan. A measure of such importance and to meet with such decided objection showed that the scheme was most unpopular and had great defects. As the telegram said, it would ruin our credit in Europe, and the Government has therefore most properly withdrawn it; so best.

The Galileo's mails have brought the following:—

"As generally anticipated, the directors of the Bank of England have raised their minimum discount rate from 4 o/o, to which it was advanced on the 25th of August, to 5 o/o. The large anticipatory demand at the Bank yesterday has had the effect of over-supplying the wants of borrowers, and, as the result, today there have been hardly any applications at the Bank. The discount rate in the open market ranged up to about 4½ for 3 months' bank bills in the early hours, but as the large supply of money now outside the Bank took effect the rate fell away to 4⅛ o/o, some large parcels of fine bills having been negotiated, we believe, at 4½ o/o. The banks and discount houses have raised their rates for deposits to 3½ o/o at call, 3¾ o/o at 7 days' notice. The alterations in the foreign rates of exchange were considerable and all in favour of this country.

"Following the Bank of England, the Bank of Holland has raised its rate to-day, the change being from 3 to 3½ o/o. During business hours no such step was reported as having been taken by the Bank of France, though it was generally anticipated; but the Bank of France return, issued this afternoon, shows some unfavourable changes, the note circulation having increased £971,000 stg, being now £106,000,000, while the cash has diminished £384,000. It remains to be seen whether the Bank of France will be able to continue the policy it has pursued during the last two years, and allow its gold reserve to be further diminished. Any artificial ease thus created will, in all probability, lead to a more serious stringency in the end, when the Bank will have no choice but to raise its rate.

"The stock markets have all been unsettled by the advance of the Bank rate and the unfavourable Bank return. The changes for the day are mostly downwards; but there has been a good deal of fluctuation, a tendency to recovery being shown after each fall produced by adverse incidents. Consols opened dull at 98½ to ⅜ for money, and 98⅜ to ½ for the account, but became firmer after the advance in the Bank rate, and closed steady at 98⅝ to ¾ and 98¾ respectively. New 3 o/o closed at 97. India 4 o/o stock f ll ½ to 103½, 104.

"The sum of £70,000 sovs. was taken into the Bank, and £50,000 sovs. were withdrawn for export. The Archimedes has arrived from Brazil with £21,000 in specie.

"Rather more than £20,000 worth of bar silver brought by the Archimedes was sold today on Continental account at 51⅝d per ounce. No business has as yet been done in Mexican dollars, but the nearest price is about 51½d. The Eastern exchange rates are all unaltered. Rupee Paper has again been dull, the 4½ o/o and 4 o/o closing 90½ and 83½, 83½ respectively."

The following late news about the Antwerp produce market, from Messrs Bunge & Co. of that city, under date Oct. 6th, 1881, is important:—

Wool—
We have to report a very active demand which during the last week was further stimulated by the very satisfactory news received from the neighbouring markets. It appears from reports to hand from the principal manufacturing centres that trade is now tolerably well employed which causes buyers to operate freely at once instead of waiting for our public auctions, the opening of which has been put back, as is known, about a month past the customary time. Prices rule very firm, and owners now generally ask an advance on the rates established at our previous public auctions, which they succeeded in many instances to haul through.

Our statistical position is now the following:

	Bales.	
Stock on 22nd Sept.	20,912	
Arrivals from Buenos Aires	2,376	
Do Montevideo	359	
Do Rivers	33	2,768
Sales by private account	2,900	32,680
Public sales	—	
Transit	1,513	4,413
Stock to-day		28,267

Public sales were held in Havre from the 27th till 30th ultimo. The result may be called quite satisfactory especially as regards the quantity sold, which is large considering the important withdrawals usually made at the auctions in that city. Buyers had appeared in large numbers and operated freely at prices which establish a rise of from 6 to 10 centimes on August. There were in all 8,287 bales offered whereof 5,864 bales sold. Between the sittings some 1,500 bales changed hands.

Reports from the public sales now being held in London are equally encouraging. The tendency appears to be in sellers' favour and prices though showing no quotable rise on the opening yet rule extremely firm.

The late New York papers received per Handel give the following:—

"Credit Foncier-Maritime de France.—Capital, 25,000,000 francs, £1,000,000 stg. — A company, with Eugene Guieu, general manager, bearing the above name has just been established in Paris, with correspondents in all parts of the world, and with branch houses already opened at Marseilles and Havre, with others in course of formation in Bordeaux, Dunkirk, Lille, Lyons, Mulhouse, Nantes, and Saint Nazaire. The New York manager is J Bertschmann, Post Building. The statutes of the Company permit the directors to extend loan operations to the construction and completion of harbors, canals, docks, &c.; in fact, to all undertakings tending to the development of the maritime trade. With this object in view, it has been determined to follow the plan adopted by the Credit Foncier, viz:—To make advances for as long a period as may be compatible with perfect safety. To fix the amount of each loan as high as the value of the security offered will permit, due allowance being made for depreciation. The branch houses and agencies will be authorised, subject to certain restrictions, to advance money on bills of lading, warrants, and other securities. Among the Board of Directors we notice the names of M Charles Jeny, Officer of the Legion of Honor and Deputy, Chairman; Count Alfred D'Auberjon, Member of the Legion of Honor, Director of the Banque Nationale; M Ernest Balensi, Officer of the Legion of Honor, Chairman of the Board of Directors of the Banque Generale des Assurances; M Emile de Girardin, Member of the Legion of Honor, and Deputy; M J S Varuz, senior, Member of the Legion of Honor, shipbuilder, ex-Deputy, and ex-Chairman of the Chamber of Commerce at Nantes. The Credit Foncier-Maritime de France lends advances on every kind of shipping security; will open credits and current accounts on the same guarantees. It will also advance money to assist in establishing or carrying on undertakings connected with the fitting out or sailing of vessels, with the carrying trade, or with maritime commerce or enterprise. It will open credits upon documents."

Es inutil de nuestra parte hacer encomios sobre la bondad de la produccion de este establo, pues los an males que el señor Carman llevo a la Exposicion, hablan con mas elocuencia desde que obtuvieron los primeros premios, y basta saber que los que hoy se ofrecen en venta son hermanos de los expuestos y premiados.
La edad de ellos es la de 2 años y estan en perfecto estado de servicio.

El Viernes 4 de Noviembre
A las 2 en punto de la darte
Venderemos por el precio que exceda de la pequeña base que se le ha fijado y por orden terminante de su dueño.
Seis leguas proximamente de campo que como hemos dicho dista solo 11 leguas del pueblo de Bahia Blanca y cual esta en la Provincia de Buenos Aires, lindando con la zanja del Fuerte Argentino lo cual lo garantee mucho mas que a cualquiera otro y viniendo a quedar su ubicacion entre este Fuerte y Puan.
Al campo lo cruzan dos caudalosos arroyos el Corta Pie y el Pelicura poseyendo a mas varias lagunas, por cuya razon, y por la escelencia de sus pastos tiernos, reconocidos como los mejores de aquel parage, resolvieron el general Garcia y Coronel Donovan en la expedicion, establecer alli las grandes invernadas del ejercito.
Por esta razon hemos rogado a estos dos gefes distinguidos se sirvan darnos sus informes, los cuales publicamos a continuacion.
Muy inmediata a este campo esta la concesion Plaza Montero pero es lindero con el gran establecimiento del Sr Ernesto Tornquist, que como se sabe esta todo poblado con edificios y hacienda, y totalmente alambrado.
A mas todos los linderos que mas abajo se mencionan, tienen tambien, sin escepcion sus estancias pobladas y trabajando.
A este campo lo cruza el telegrafo y el camino real que va a Bahia Blanca, Guamini y Puan, pasando por su cento la galera que va a Carhue.
Para probar elocuentemente que este es el mejor campo que se ha puesto hasta hoy en venta, basta decir que el Sr. Ataliva Roca lo adquirio hacen 3 años, cuando recien se abrio la primera suscricion por cuya razon el num. de orden del titulo es el 12 lo que evidencia que el Sr Roca fue el primero de los que eligieron por los escelentes informes que tuvo.
Hay otra razon para garantir que ningun campo se encuentra en mejores condiciones de venta que este, y el que, como se sabe, el Gobierno Nacional piensa hacer funcionar el puerto de Bahia Blanca muy pronto y en esta virtud que muy pronto tambien funcionar dos saladeros que se construyen alli.
Este campo no tiene ningun gravamen, no adeuda nada al Gobierno.
En nuestra casa, se daran cartas ordenes para Bahia Blanca, donde estara una persona encargada de mostrar el campo.
Los titulos son de primer orden.
Los linderos y su ubicacion los siguientes.
Por su fondo al S.O. con el lote num 47 de D A Gonzalez Chaves; por el N. O. con el lote 35 de L A Burgos; por el S. E. con el num 38 del mismo Gonzalez Chaves.
El lote 36 y el 36 prima [que es el que esta en venta] linda por el N. O. con la zanja de la linea de frontera, teniendo por consiguiente la ventaja de tener un frente de defensa imprantable.
NOTA—Podemos garantir que no hay expropiacion del Ferro Carril del Sud y que el Gobierno de la Provincia se acaba de arreglar con la empresa, para concluir la linea del Azul hasta Bahia Blanca a principio del año 1884.

The Galileo's Mails

Oct. 8th. 1881

Mr Gladstone's visit to Leeds was further marked yesterday by enthusiastic demonstrations of welcome, to which the Premier unreservedly exposed himself. Accompanied by Mrs Gladstone, he was driven to the Town-hall, where upwards of seventy addresses were presented to him, prominence being given to the Corporation address and that of the Leeds Liberal Association. In his reply, Mr Gladstone assumed his popular appellation by saying that it had always been his desire to do what he considered best on behalf of the people. The British people were always generous in acknowledging even an endeavour to serve them. Descending to matters of more practical concern, he made a very lengthy speech, in which he explained that the depression of trade (much felt in the Leeds district) was owing to three successive bad harvests, and to a relapse from a former state of unexampled commercial prosperity. He characterised the Fair-trade League as very unfair in their representations, and called upon Sir Stafford Northcote to avow himself for or against protection.

In the evening Mr Gladstone was entertained at a banquet in his honour in the Cloth-hall. Responding to the toast of his health, the right hon. gentleman dwelt at considerable length on the salient points of the political situation. Alluding particularly to Irish affairs, he spoke sarcastically of the pledges of a Conservative candidate who pledged himself to the unconditional release of the political prisoners. Accepting the challenge of Sir Stafford Northcote, Mr Gladstone said he would speak out unreservedly on the subject of Ireland, and accordingly he contended that Ireland had achieved more material progress than was to be expected in a country where there was so little variety of pursuits. The condition of the Irish labourer, he argued, had progressed at a more satisfactory rate than that of the English labourer. There was an imposing torch-light procession in the neighbourhood of the Cloth-hall. To-day Mr Gladstone will address a great meeting in the same building.

The imports of the United Kingdom for September are £1,000,000 less in value than those of the same month last year, the exports £900,000 more.

An Imperial Commission has commenced its sittings in St. Petersburg to inquire into the intemperance of the Russian people. Experts have been invited to attend and give evidence, and the Minister of the Interior, in opening the Commission, laid stress upon this special method of promoting legislation in Russia, which plan of deliberation had for the second time this year been resorted to at the Imperial command.

The Conservatives of Abercromby Ward (Liverpool) asked Mr Anthony Bower to again allow himself to represent the ward in the City Council. The meeting was enthusiastic and unanimous, and Mr Bower's qualifications, and his services to the rate-payers particularly in reference to the water supply, were justifiably put forward as undeniable reasons for his unopposed re-election. He fully accepted the requisition to stand.

Viccars Collyer, the pork-pie maker, of Leicester, on whose premises upwards of two tons of putrid and diseased meat was seized, was yesterday sentenced to two months' imprisonment, without hard labour. The magistrates granted an appeal.

The official report of the committee appointed to inquire into the position and circumstances of the powder magazines on the Mersey is issued. In arriving at their conclusions, the committee have been guided by the comparative results of various gun-powder explosions, and the precautions adopted in regard to Government explosives. The committee are of opinion that the present position of the hulks is not unsafe or unsuitable, provided that the space set apart be well defined in a manner specified, that not more than 200,000 lbs of powder be stored in each vessel at one time, in which case that the vessels be 200 yards apart; that all vessels, if possible, be prohibited from passing within 100 yards of the magazines; and that a detachment of river police be stationed inside the gunpowder ground to enforce the regulations.

Professional pugilists have evidently not taken serious alarm at the Home Secretary's circular. Another prize fight was yesterday stopped by the police near Tamworth, but not before the combatants, two well-known Birmingham professors of the noble art, had fought for nearly two hours. One of them, named Carney, was terribly punished; he was arrested. Eight men who took part in the prize fight at Aston last Sunday, including one of the principals, were committed for trial yesterday.

The Turkish Ambassador to St. Petersburg is reported to have assured the Russian Government that all Bulgarian affairs, including the sovereignty of the kingdom, have been settled to the entire satisfaction of Turkey. Chakir Pasha, who has been accredited the ambassador to Russia for a further term of three years, is also reported to have given assurances with regard to Armenian reforms and the disturbances on the Kurdish frontier.

Professor Goldwin Smith, the president of the Economy and Trade Section in the Social Science Congress, yesterday made some important observations on the Irish land question. He deprecated the confiscation of landed property, especially without compensation, because to confiscate one kind of property would be to destroy all. If private property in land was wrong, the error was that of the community as a whole; and if a change was to be made, it should be done at the expense of the community, and not of a particular class. In America they had no agrarian movement, properly speaking, and no fear of communism. The professor pointed out that it was paradoxical to call the Irish movement communistic because the Irish farmer sought to make himself the owner of the soil. The next meeting of the Congress is to be at Nottingham.

Brandy drinkers, if they discriminate at all, will not feel assured by some revelations in a case at the Mansion-house yesterday. A Tower-street wine merchant was charged with obtaining £7,800 by fraud, the allegation being that he gave as security warrants relating to wine and brandy which turned out to be nearly worthless. The brandy was stated to be composed of Berlin spirit, the basis of which it was impossible to describe, but it was spirit of the very lowest description, and made at Hamburg and other places specially for the English market.

At its concluding sitting, yesterday, the Church Congress discussed the merits and status of the Revised Version of the New Testament. The Archdeacon of Oxford contended that revision was necessary, because the authorised version was based on an imperfect Greek text, the translation of which was occasionally erroneous. Canon Evans, of Durham, objected to many of the alterations. Dr Sanday thought further revision was necessary before the version could be accepted. The Bishop of Durham, one of the revisers, urged that real evils had been removed by the version, the non-acceptance of which would be another evil, though he did not plead that any immediate action should be taken.

STATE OF IRELAND.

A daring attempt was made on Monday night to assassinate a landlord, named Arthur S. Bingham, of Doohlagh Lodge, Erris, co. Mayo. When returning home in the evening from the town of Belmullet, in which he had been marketing, he was fired at from the roadside. The bullet missed Mr. Bingham, but passed through the arm of a young girl who was seated on the car beside him. The steepness of the road at the place where the shot was fired compelled Mr Bingham to drive slowly. The report of the rifle was followed by a scream of agony from the girl, and her master seeing the person who had fired the shot, jumped from the car and pursued him across the fields. After a stiff race he actually laid hands on the man, and dragged from his head a cloak with which he was disguised. The man, who was almost completely attired in female clothes, then got clear of. When Mr Bingham, who retained the cloak, returned to the trap, he found the wounded girl in an almost unconscious condition from pain and loss of blood. Mrs. Bingham, who also accompanied her husband, was scarcely capable, through fear, of holding the reins. Mr Bingham immediately drove into Belmullet, and informed the police of the attempted assassination and procured medical aid for the wounded girl, who was in a precarious condition. The bullet had passed through the fleshy part of the arm below the elbow. Mr Bingham carried no firearms, although he has been threatened on several occasions. He is at present Boycotted.

A banquet was given to Mr. Parnell at Dungarvan last night immediately after the closing of the Convention. About 300 guests attended. The chair was occupied by the Rev. Mr Burke. Messrs. Parnell, O'Donnel, Leamy, Power, and Healy, members of Parliament, attended. Mr Parnell, responding to the toast of "The Progress of the Land League," said—When we commenced our movement friends told us we injured the country. No doubt an agitation so intense must do some injury, but we hope, and are sure, that the people will reap inestimable benefits. Ireland must become worse before she becomes better. All must admit the necessity of sweeping away the rotten fabric of Irish landlordism. The Democracy have been the bone and sinew of our movement. We commence with the tenant; we now turn to the labourer and to the industrial resources of Ireland. Our desire is that every man may reap the reward of his industry. If we can become manufacturers abroad, why not at home? Simply because the curse of an alien rule lies heavy over us. Let us make laws for ourselves. Something was done last Session, but all this and more cannot wean the attention of Irish representatives from the grand and ultimate object of all true Irishmen—self-government. The town of Dungarvan was illuminated last night. The soldiers and constabulary were confined to their respective barracks, but no disturbance took place.

Mr Robert Vesey Stoney, J.P., of Rossturk Castle, Westport, has issued a circular to the tenants on his Mayo and Roscommon estates offering to sell them their holdings at twenty years' purchase, three-fourths of the purchase-money to be borrowed from the Land Commission, and the remaining fourth to be paid in cash, or borrowed from the landlord for ten years at 5 per cent. as a second mortgage. The tenants have applied to the Land League for advice, and have been informed that they should enter into no such arrangement with the landlord until they see the result of the test cases which the League is taking into Court.

Sixty tons of hay, valued at 180*l*., the property of a large farmer, near Oola, county Limerick; and thirty tons of hay, valued at 90*l*., the property of Miss Ryan, in the same county, were destroyed before dawn yesterday morning by incendiary fires. The light could be seen for miles round.

At the meeting of the Kilmore (county Roscommon) Branch of the Land League held yesterday a resolution was passed calling upon the tenants to follow the lines laid down by the Land League Convention, and in case the Land Act did not prove to be of advantage to the tenantry to unfurl the flag of nationality—"Ireland a Nation."

Mr Joseph G. Blake, Ballinaford House, Balla, has reduced the rents of all tenants who paid him Griffith's valuation. He has also made an abatement of 30 per cent. to some tenants who owed from two to four years rent.

John Dunleavy, of Bohola, Kiltimagh, was unconditionally released from Galway Gaol yesterday. He was arrested in June last.

Mr Dillon Egan, Mr T. P. O'Connor, M.P., and Mr Redpath, with Mr Locke, an American journalist, embarked at Queenstown on board the steamer City of Brussels. They came down to Queestown in a special steamer from Cork, which carried the American colours and the Irish harp. They were received with cheers by the passengers of the City of Brussels, and addresses were presented to the party, to which replies were delivered.

Dear Sirs,
I have been using your "Golden Fleece Dip" for the cure of scab in sheep during the whole year and I have not seen its equal in these parts.—It is an effectual and rapid cure, it not only destroys the scab in a very short time, but soon produces a new growth of wool.—
I have delayed writing you sooner in order that I might be the better able to judge of the effects of the medicine and to compare it with the remedies used by other sheepfarmers, none of whose flocks are at all so free from scab as mine, although they have been working far more constantly than I, to keep down scab, as regards its cost, it is the most profitable of any I have ever used or know of.
You are at liberty to use this as you may see fit and remain

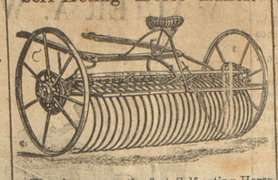
HOWARD'S CELEBRATED MACHINES

Howards' Self-Acting Horse Rakes.



The above were the first Self-acting Horse Rakes which secured public favour, and owing to their extraordinary success various attempts have been made to imitate them, but J. & F. HOWARD'S simple brake principle—Patented—is so instantaneous in action, that all the contrivances introduced by others for effecting the same object are in comparison but complicated expedients.

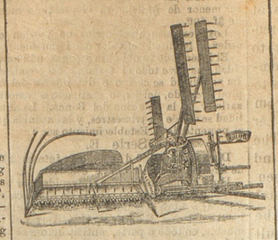
OOOO, 22 teeth, 52in. wrought wheels, 10 feet wide, weight 6 cwt.

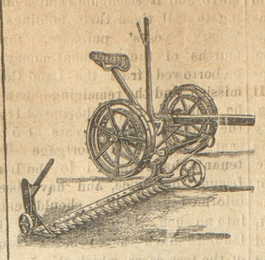
Howard's New Patent Simplex Mower.



J. & F. HOWARD'S Simplex Mower is one of the lightest machines ever produced. It is from its construction remarkably strong, and has been found to be capable not only of cutting the heaviest crops, but of standing the roughest usage. J. & F. HOWARD'S patented principle of *open gearing* is adopted. This gearing, among other advantages, is light in weight, of great strength, and not liable, as other gearing, to get clogged with the cut grass, there being no cogs to catch it, and no shield therefore is required.

With two Knives, Spring Seat, and Tool Box, containing all requisites for use in the field, weight 6 cwt.

Howard's New Patent Simplex Reaper.



J. & F. HOWARD'S Simplex Reaper is in every way constructed to meet the demand for a light, but strong Reaper. It has a large travelling wheel, and having the fewest possible wearing parts, its value, especially where repairs are difficult to execute, can hardly be overstated. The experience of several harvests with large numbers of these Machines, both at home and abroad, and the distinguished place they have obtained in public trial fields, have fully demonstrated their superiority.

With two Knives, Seat and Tool Box, containing all requisites for use in the field, weight 10½ cwt

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of Opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

—o—

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION.—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c., at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*
